
PRODUCT INFORMATION

A Product of Valvoline Cummins Ltd.

Valvoline Chassis Grease

PRODUCT DESCRIPTION

Valvoline Chassis Grease is Calcium based grease fortified with extreme pressure additives and tackifiers for optimum performance under severe road conditions of shock loads and vibrations. It is highly water repellent.

APPLICATION

Valvoline Chassis Grease is recommended for all types of chassis lubrication requirements such as ball joints, suspensions, steering gear systems, plain bearings, bushings and pins in automotive chassis assemblies.

Valvoline Chassis Grease due to its excellent water resistance is ideally suited for automotive under-carriage protective coating during monsoons and wet operating conditions.

PERFORMANCE STANDARDS

IS: 506 (1993).

TYPICAL CHARACTERISTICS

Colour	Dark Brown
Structure	Smooth
Type of soap	Calcium
Worked Penetration (60 Strokes) @ 25°C	290
Drop Point, °C, Min.	95

Available Packs: 180 Kg.

9/2008
