

PRODUCT INFORMATION

A Product of Valvoline Cummins Ltd.

Valvoline Koolant Concentrate Heavy Duty

PRODUCT DESCRIPTION

Valvoline Koolant Concentrate Heavy Duty is synthetic based, balanced formulated anti freeze engine coolant for use in heavy duty diesel engines around the year.

It protects cooling system metals from corrosion including aluminium and prevents foaming and scale formation.

FREEZING POINT

| | |
|-----------------------------|---------|
| 30% volume aqueous solution | - 15 °C |
| 50% volume aqueous solution | - 34 °C |

RECOMMENDED DOSAGE

1 part of Valvoline Koolant Concentrate with 1 part of good quality water.

DIRECTIONS FOR USE

- Drain and flush cooling system with water.
- Check system for leakages, if any.
- Fill radiator upto half with Valvoline Koolant Concentrate and top up with good quality water maintaining 1:1 ratio.
- Top up periodically with Valvoline Koolant Concentrate upto maximum mark on the expansion bottle.

Available Packs: 3, 5 & 210 Liters

9/2008

PERFORMANCE STANDARD

JIS K-2234-94, Class 2

APPLICATION

Valvoline Koolant Concentrate Heavy Duty is recommended for use in Cummins S 3.8 series diesel engines for genset application.

PERFORMANCE BENEFITS

- Protection against corrosion to cooling system metals including aluminium.
- Prevents hot weather boil-overs and cold weather freeze-ups.
- Does not harm non-metallic components like gaskets, hoses etc.
- Environmental friendly.
