

Dear Valued Customers,

Cummins has now been in India for over 50 years building power solutions using a customer centric approach and providing fit for market products. Our technology has demonstrated reduced total cost of ownership, optimum fuel efficiency and offers best in class solutions.

In the past few years, engines have undergone major hardware changes that require specifically designed lubricants to achieve and improve performance. "Usage of genuine Cummins parts along with Valvoline **Premium Blue** Engine Oil" are highly recommended on the basis of long and extensive trials and research across all Cummins engine platforms. Moreover, Valvoline **Premium Blue** Engine Oil is a higher Total Base Number (TBN) product designed for the latest diesel engine specification from API, ACEA, JASO as well as various OEMs including Cummins.

The usage of genuine Cummins spare parts and Valvoline **Premium Blue** provides:

- **Reliability- Every Time**
- **Single window solution to customers with extensive dealer reach**
- **Lower failures, lower downtime and enhanced engine life**

Globally, Cummins has a strong partnership with Valvoline as it helps bring the best of technological synergy in serving end customers. In India, Valvoline Cummins Private Limited is a Joint Venture between Valvoline International Inc. (100% subsidiary of Ashland Inc., US) and Cummins India Limited.

We look forward to our continued strong and mutual beneficial business relationship.
