- Does not harm synthetic materials
- Removes oil, fuel, and grease contamination

**Can be used for copper, brass as well as aluminium radiators**

Genuine Cummins Guarantee

Maximum Uptime

Enhanced lifespan of engine

Reliable parts

Latest grade and superior  
quality material

## Did you know:

One of the major causes of Engine failure is improper maintenance of cooling system. Once a cooling system is scaled or rusted it will not get cleaned by just flushing with water.

“Radiwash” addresses the variety of cleaning needs.
